

3 HEALTH AND WELL-BEING

3.1 Reduce the maternal mortality ratio to 30 per 100,000 live births.

3.2 Reduce the neonatal mortality rate to five per 1,000 live births, and the mortality of children under 5 years of age to 8 per 1,000.

3.3 End the epidemics of AIDS, tuberculosis, malaria, viral hepatitis, neglected diseases, Aedes aegypti transmitted diseases, and other communicable diseases.

3.4 Reduce by one third premature mortality from non-communicable diseases through prevention and treatment, promote mental health and well-being, worker health, and prevent suicide, significantly counteracting the increasing trend.

3.5 Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol.

3.6 By 2020, halve the number of global deaths and injuries from road traffic accidents.

3.7 Ensure universal access to sexual and reproductive health-care services and input

3.8 Achieve universal health coverage, including financial risk protection, access to safe, effective, quality and affordable essential medicines and vaccines for all.

3.9 Reduce the number of deaths and illnesses from hazardous chemicals and air, water and soil pollution and contamination.

3.A Strengthen the implementation of the World Health Organization Framework Convention on Tobacco Control.

3.B Support the research and development of technology and innovations in health for the communicable and non-communicable diseases, provide access to these technologies and innovations incorporated into SUS, including medicines and vaccines for the whole population

3.C Substantially increase health financing and the recruitment, development, training and retention of the health workforce in developing countries, especially in least developed countries and small island developing States.

3.D Strengthen the local capacity for early warning, emergency and risk reduction and management of national and global health risks.
